

Golfers!

Slot Machine Collectors!

Tee off together with a winning combination . . .

The HOLE-IN-ONE is a brighter idea, made with you and your special interests in mind.

This slot machine is a powerful combination of ability and appeal. The design and function speak especially to the golfing enthusiast in you or someone you love. The machine is much more than just another pretty face.

Each machine is built around the image of a Mills, early 1930s slot machine, with genuine, original, antique Mills slot machine mechanism housed in a unique contemporary case. The condition of the mechanism is such that thousands more cycles are assured for your fun and pleasure.

Each machine is designed for quarter play only, and maintains a front-loading jackpot capacity of between $18 and $23. The jackpot coins are on continual display behind a front center window. The visual effect is striking.

HOLE-IN-ONE's individually molded accents are completely unique. A golfball accent with crossed clubs is affixed to each side of the machine face at the top. Two golfers teeing off are at the bottom of the machine, one on either side of the jackpot display window.

These embellishments are available finished in gold, antique bronze, or antique copper. They attract attention, inspire comment and fascinate the viewer.

Certainly this HOLE-IN-ONE slot machine is for golfers and friends, whether or not you've ever owned a slot machine before. Just as certainly a HOLE-IN-ONE is for slot machine collectors and friends, whether or not golf is your game. As a matter of fact, the HOLE-IN-ONE slot machine is for you, whoever you are. And you don't even have to be a pro golfer to get one.

Don't be left out standing in the rough when you could be playing through with your own HOLE-IN-ONE slot machine!
