Seller's description

Up for bid is this very rare and one of the most desirable of all coin operated machines. It was called the "Full

Deck," made by Paupa & Hochriem Co. of Chicago Ill. It was patented in 1897, and made in 1898. This machine is pictured in Thomas Gustwiller's fine book, "For Amusement Only," on page 5. On the Rarity scale it rates an A, which means 5 or less of these machines are known to be in existence today. You won't find anything else on eBay that compares to this rare coin machine. This rare and desirable coin machine came from a local saloon here in town, handed down though the family, and it has never before been on the open market. I am not a coin operated slot machine expert, you be the judge. This coin machine looks to be all original, I have not tried to operate it. There is a strip of wood missing below the lock, about 1" or less. This rare coin slot machine measures 21" tall by 18 1/2" by 10" and weighs about 45 lbs. It sells without reserve and starts at only 99 cents. Please refer to pictures for actual condition as they are a major part of the description. If you have any questions I will try my best to answer them. Six tokens from this machine will be sold separately. Please see my other items that are listed. They come from local estates and are fresh to the market. This is for USA bidders only, no international shipping. If shipping is less a refund will be given. Payment must be received within 3 days from the end of the auction, or this rare coin machine will be relisted. I always leave feedback and hope you will do the same. Good Luck bidding and may God Bless You
